About me
P speciation in soil and dust: application of XANES in earth sciences

Gu et al. 2020 ES&T; Barnes et al. (forthcoming)
Organic P species dominant in dust collected from high-elevations in both the Sierra Nevada and Rockies

O’Day et al. 2020 ES&T
Office of Science User Facilities

FY 2023
28 scientific user facilities
~36,000 users
Driving Discovery Science for the Nation

Discovery science supported by the Office of Science builds the foundation for ensuring America’s future prosperity and competitiveness by addressing its energy, environment, and national security challenges.

Fostering Great Minds and Great Ideas

The Office of Science addresses the world’s most challenging scientific problems, supporting innovation from America’s brightest minds, across multiple disciplines, and at universities, DOE’s national laboratories, and other research institutions.

Providing Unique, World-Class Facilities

The Office of Science stewards a suite of scientific user facilities that provide the broad scientific community with world-leading capabilities for research - from physics, materials science, and chemistry to genomics and medicine.
Diversity, Equity, Inclusion, and Accessibility

The Office of Science is deeply committed to:

- Supporting diverse, equitable, inclusive, and accessible environments
- Promoting people of all backgrounds
- Harnessing a diverse range of views, expertise, and experiences
Office of Science Initiatives
